TEACHING PHILOSOPHY

Art education teaches a lens through which students can examine the world around them. Fostering creativity is essential for well-rounded development. I aim to provide my students with skills that extend beyond the art room, encouraging critical thinking, problem-solving, and collaboration. By nurturing their artistic voices, I empower them to confidently express themselves and approach challenges. My goal is to create a vibrant learning environment where creativity flourishes.

CAREER OBJECTIVES

Passionate and creative art educator dedicated to creating an inspiring and energetic classroom where students can explore their creativity, build confidence, and develop a lifelong appreciation for the arts.
